SUMMARY

Building experience at the intersection of startup strategy, business operations, growth and technology-driven ecosystems. Alongside a BS in Data Science at IIT Madras, I have worked in early-stage startups on business strategy, branding, market research, client outreach, stakeholder management and operational execution. At Gaara AI and Ments I have been involved in business development, ecosystem research, branding strategy, competitor analysis, client communication, relationship management and startup operations support. On the technology side I explore product-oriented and full-stack projects, building systems with Flask, VueJS, Redis, Celery, SQLite and Bootstrap.

Core interests: Startup Strategy & Operations • Business Development & Growth • Ecosystem & Market Research • Technology & AI-Driven Systems • Product & Operational Thinking

Looking for opportunities in: strategy, startup operations, consulting, founder's office, and technology-enabled business ecosystems.

TOP SKILLS

Machine Learning • Agentic AI Development • Retrieval-Augmented Generation (RAG) • LangGraph

Full-stack: Flask, VueJS, Redis, Celery, SQLite, Bootstrap

EXPERIENCE

Syngenta — Data Science Intern

Jul 2026 – Present

Pune Division

Ments — Business Strategy & Ecosystem Operations Intern

Apr 2026 – Present

- Working across startup ecosystem research involving founders, startups, incubators, investors and emerging business ecosystems.
- Contributing to business strategy, market research, branding, positioning and operational coordination initiatives.
- Supporting client outreach, stakeholder relationship management and communication workflows across startup-focused activities.
- Collaborating on business development, ecosystem mapping and growth-oriented operational initiatives.
- Participating in strategic research and execution related to startup networking, collaboration and ecosystem engagement.
- Coordinating across teams and contributing to operational execution within fast-paced startup environments.

Gaara AI — Business Strategy, Branding & Operations

Feb – May 2026

Chennai, Tamil Nadu, India

- Contributed to business strategy, market positioning, branding and growth-related initiatives within an early-stage AI startup.
- Worked on client outreach.
- Conducted competitor research, ecosystem analysis and business research to support strategic decision-making.
- Supported marketing strategy initiatives including branding communication, audience positioning and visibility efforts.
- Managed end-to-end social media operations including content writing, publishing workflows and branding coordination.
- Collaborated across operational and cross-functional startup activities supporting growth and execution.
